

Jai Kishan Kumar (Bihar, India)

+91-8210539367 — Email — GitHub — LinkedIn

Professional Summary

Full-Stack MERN Developer with hands-on experience building scalable, production-ready web applications. Strong expertise in React, Node.js, Express, MongoDB, authentication systems, and role-based access control. Proven ability to design secure APIs, real-time dashboards, and deploy applications on AWS using Nginx. Background in commerce with a strong transition into software engineering through self-learning and real-world projects.

Technical Skills

Frontend: React.js, Redux, Redux Toolkit (RTK), JavaScript, HTML5, CSS3, Material UI (MUI), Tailwind CSS
Backend: Node.js, Express.js
Databases: MongoDB
Authentication & Security: JWT, Role-Based Access Control (RBAC), Attribute-Based Access Control (ABAC)
DevOps & Deployment: AWS EC2, Nginx, Docker, Cloudinary
Tools: Git, REST APIs, JSON, VS Code

Projects

EMS - Employee Management System [Live] *React.js, Node.js, Express.js, Redux, AWS EC2, Nginx*

- **Real-time** employee attendance and leave management system with **biometric device integration**.
- Implemented hybrid **RBAC + ABAC** for fine-grained access control across admins, managers, and employees.
- Built dashboards, logs, reports, and deployed production setup on AWS EC2 with Nginx.

BattleFiesta – Esports Tournament Manager [Live] *React.js, Node.js, Express.js, Redux, AWS EC2*

- Full-stack platform to create, manage, and run esports tournaments.
- Implemented secure authentication using **JWT** and admin-controlled workflows.
- Automated team approvals, ranking tables, match results, and tournament statistics.

Accusoft – Expense Management System [Live] *React.js, Node.js, Express.js, MongoDB AWS EC2*

- Expense tracking system with responsive UI and RESTful backend APIs.
- Implemented **JWT-based authentication** and various type for Reportings
- Enabled CRUD operations, expense reports, and secure data handling.

Experience

Self-Taught MERN Stack Developer 2022 – Present

- Built multiple full-stack web applications through self-learning and hands-on projects.
- Practiced clean code principles, API design, authentication flows, and deployment.
- Transitioned into software development from a commerce background through consistent upskilling.

Cashier — Real State Company 2019 – Present

- Managed daily cash handling, billing, and customer transactions with accuracy.
- Maintained records and handled customer queries efficiently.

Education

Bachelor of Commerce (62.7%) — Magadh University, Patna 2013 – 2016

Intermediate of Commerce (69.8%) — Bihar School Examination Board 2011 – 2013

Matriculation (71.6%) — UPHS (J&K Board) 2011
