Summary

Fresher MERN Developer with hands-on experience building **optimized, scalable** web applications using **React, Node.js, Express, and MongoDB**. Skilled in authentication, **role-based access control**, and deploying projects on **AWS with Nginx**. **Commerce graduate** from a non-technical background, moving into **software development** through **self-learning and real-world projects**.

Technical Skills

JavaScript, ES6, React.js, Redux, Redux Toolkit (RTK), Node.js, Express.js, MongoDB, HTML, HTML5, CSS, CSS3, MUI, Tailwind CSS, REST APIs

Authentication & Security: JWT, Role-Based Access Control (RBAC)
DevOps & Deployment: Docker, Docker Compose, **AWS EC2, Nginx**, Cloudinary
Tools: Git, GitHub, JSON, VS Code, Postman

Projects

EMS - Employee Management System | **Sep 2025 – Dec 2025**

- Engineered a **real-time attendance system** using **MERN**, integrating biometric devices and handling **3 user roles**, reducing manual attendance errors and improving tracking efficiency.
- Implemented a scalable hybrid **RBAC + ABAC authorization model** with **JWT authentication**, securing **20+ APIs** and enforcing fine-grained access control across multiple user workflows.
- Optimized frontend performance by building dashboards with **React + Tailwind** and applying **code-splitting**, improving initial load speed and responsiveness.
- Deployed backend on **AWS EC2** with **Nginx reverse proxy**, configuring secure API routing, SSL, and process management for production-grade reliability.

Battlefiesta - Esports Tournament Manager | **Apr 2025 – Jul 2025**

- Engineered a full-stack **esports SaaS platform** using **MERN**, supporting team registration and tournament workflows.
- Implemented secure **JWT-based authentication** with a hybrid authorization model, and integrated **Razorpay subscription billing** with webhook-based verification to manage user access and plans.
- Optimized frontend performance using **code-splitting with React.lazy**, achieving **LCP 2.04s** and **CLS 0.00** for improved load speed and visual stability.
- Deployed and configured production infrastructure on cloud using **Nginx reverse proxy** and **API rate limiting**, ensuring secure, scalable, and reliable request handling.

Accusoft - Expense Management System | **Dec 2024 – Jan 2025**

- Built a **SaaS-based expense management platform** using **MERN**, supporting multi-user expense tracking and reporting.
- Implemented **JWT-based authentication** with secure user data isolation and role-based access control.
- Designed scalable APIs and dashboards for expense management, enabling efficient operations, real-time insights, and multiple reporting views.

Education

Bachelor of Commerce (B.com) - 62.7% **2013 – 2016**
Magadh University Patna, Bihar

Intermediate of Commerce (12th) - 69.8% **2011 – 2013**
Kissan College, Sohsarai Bihar Board

Matriculation (10th) - 71.6% **2010 – 2011**
United Public Hr. Sec. School Jammu & kashmir Board
